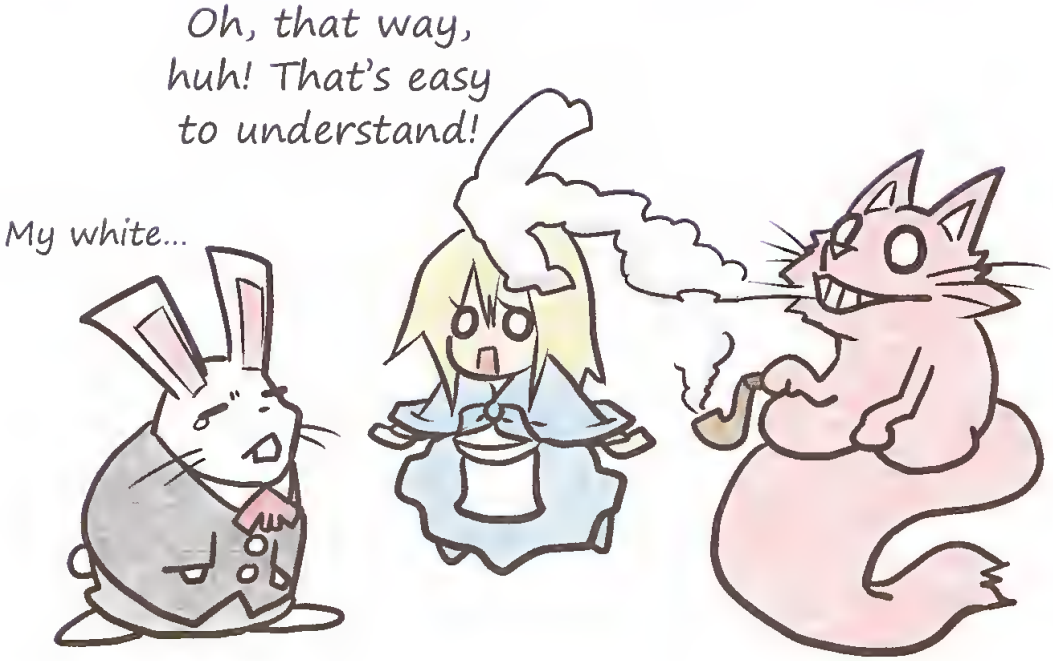
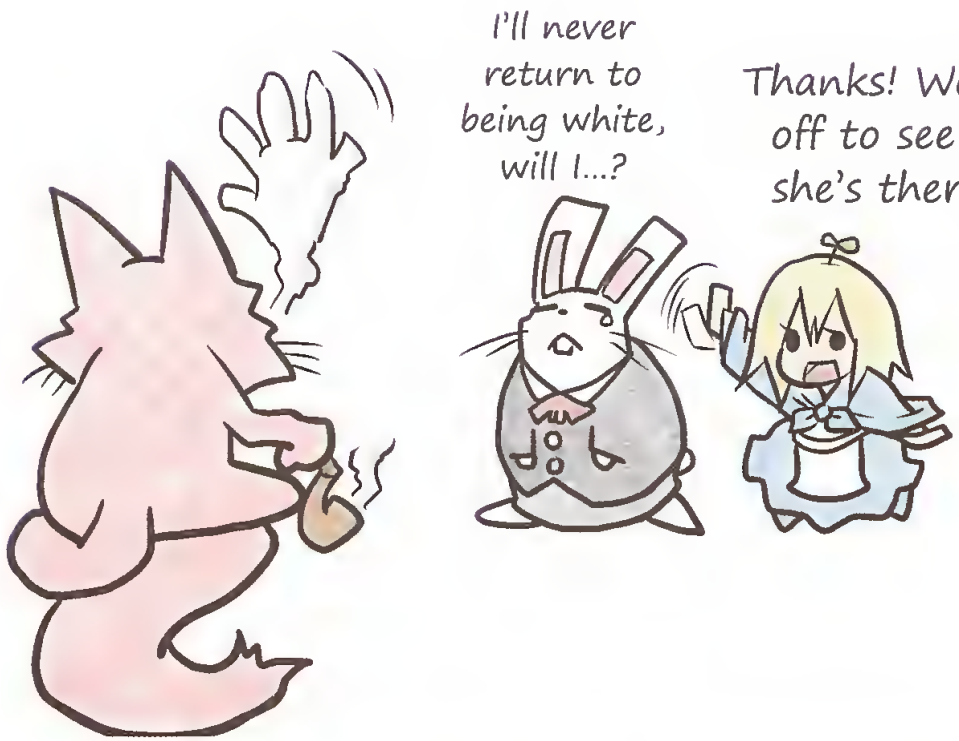
It's turned pink!! It must have taken the pink out of the female rabbit's clothes!!
Ah! There's the cat from just now! It somehow looks more brazen compared to just now!!

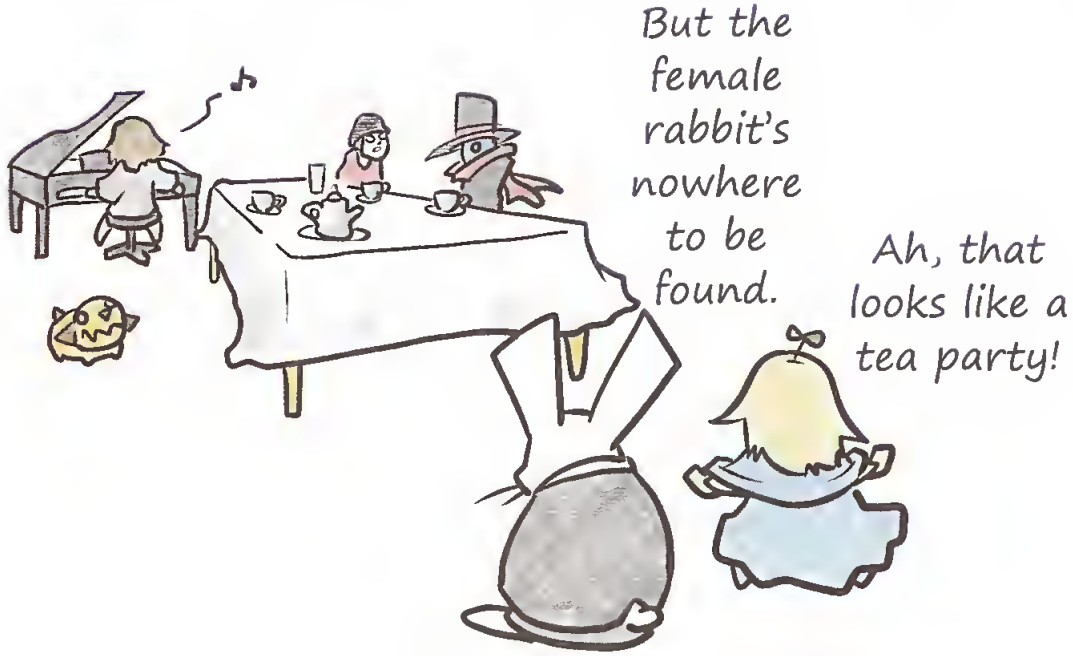
Act. 4
Tea Party



Oh, that way, huh! That's easy to understand!
My white...



I'll never return to being white, will I...?
Thanks! We're off to see if she's there!



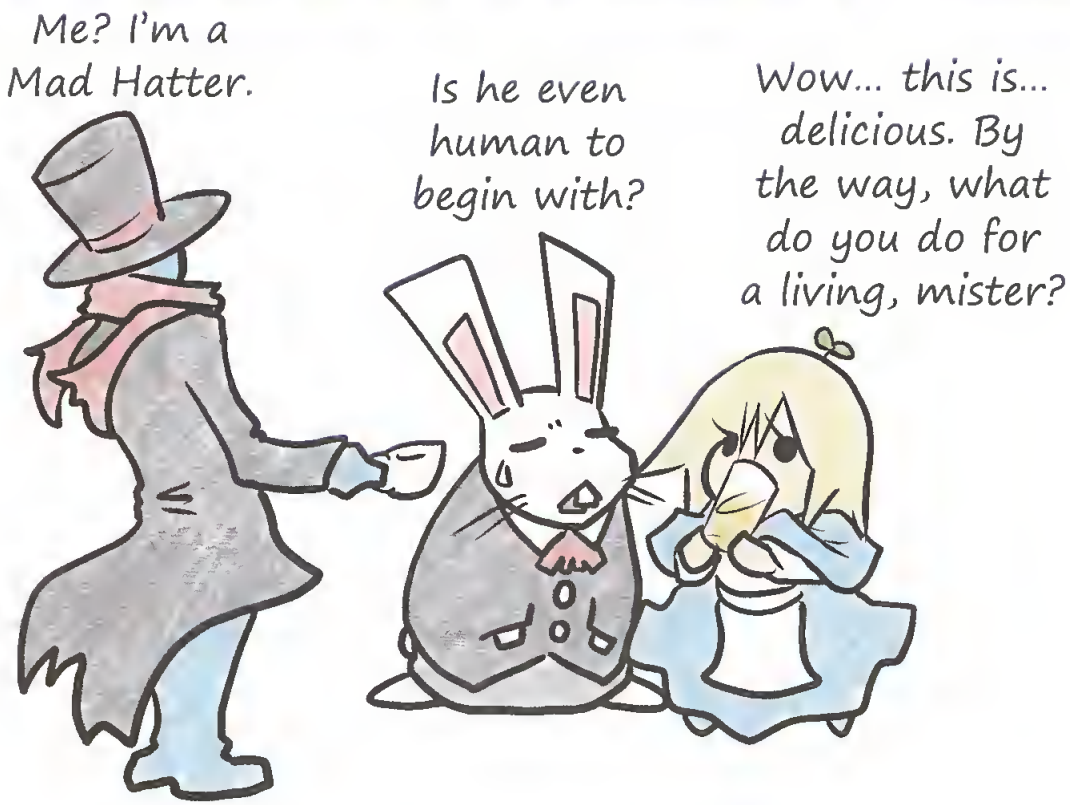
But the female rabbit's nowhere to be found.
Ah, that looks like a tea party!

It looks more like a masquerade than a tea party, don't you think?
It looks like there are some pretty amazing people here.

Note: A cocktail.

That's wine, isn't it!? This child is underage!
YOU CAN'T...!!
Eh...

'Moscow Mule-flavoured tea'.
Ah, that's not a problem, since that's
What's with that!? That's troublesome!



Me? I'm a Mad Hatter.
Is he even human to begin with?
Wow... this is... delicious. By the way, what do you do for a living, mister?

Hmm... I don't think I have any hoods...
So that means you sell hoods!?
A Mad Hatter!?

OCHAKAI

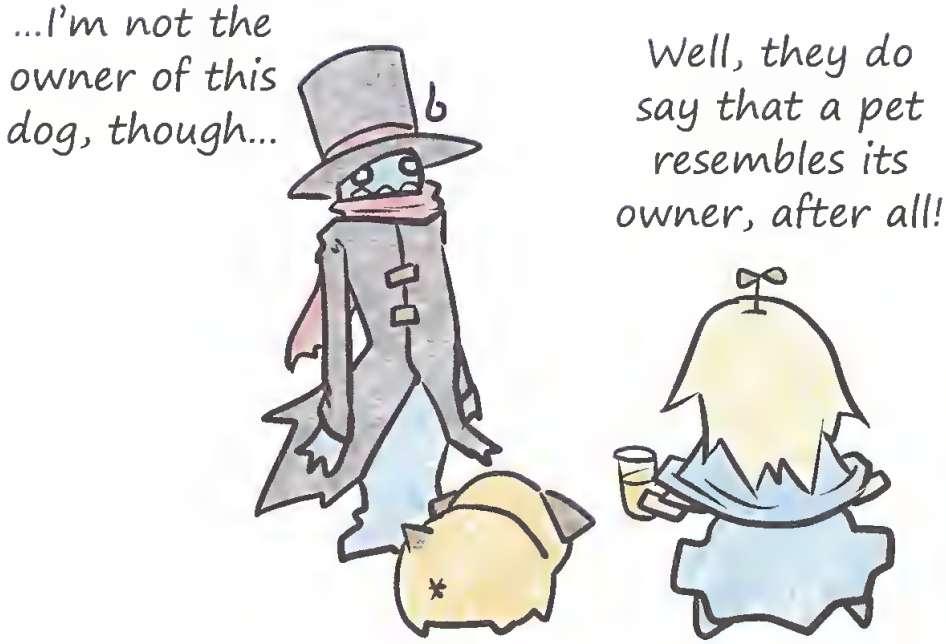
Why did you ask, then?

Well, I wouldn't buy hoods, even if he does sell them!

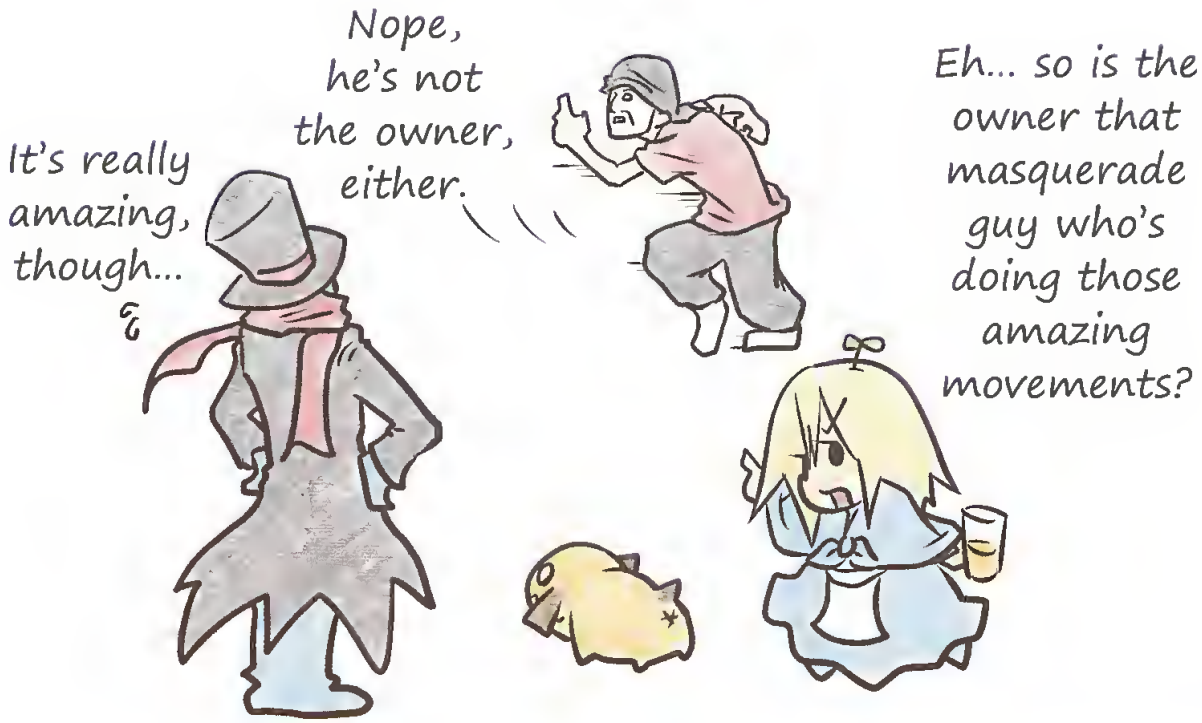
Well, excuse me for having a silly face.

It has such a silly face.

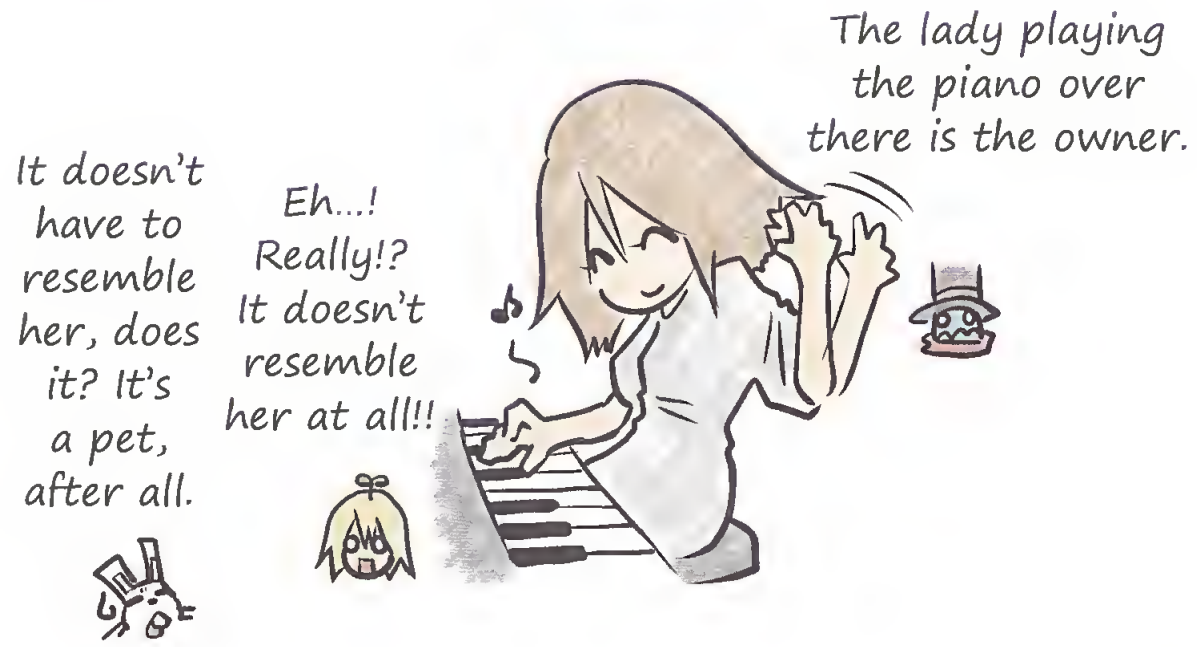
By the way, I've been curious about this for quite a while, but this dog looks exactly like you, Mr. Hatter.



...I'm not the owner of this dog, though...
Well, they do say that a pet resembles its owner, after all!



It's really amazing, though...
Nope, he's not the owner, either.
Eh... so is the owner that masquerade guy who's doing those amazing movements?



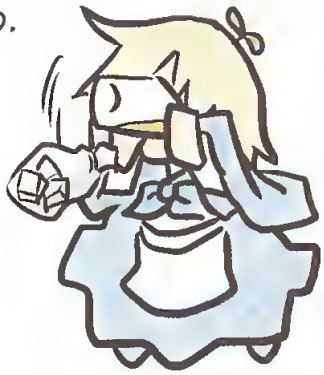
The lady playing the piano over there is the owner.
Eh...! Really!? It doesn't resemble her at all!!
It doesn't have to resemble her, does it? It's a pet, after all.

Wow! What's this, candy? Are you giving it to me? Thanks!!

Well, we were able to drink tea, so it's fine, either way. I got some candy, too.

Now that you say it, you're right.

Speaking of which, I wonder where the female rabbit went.

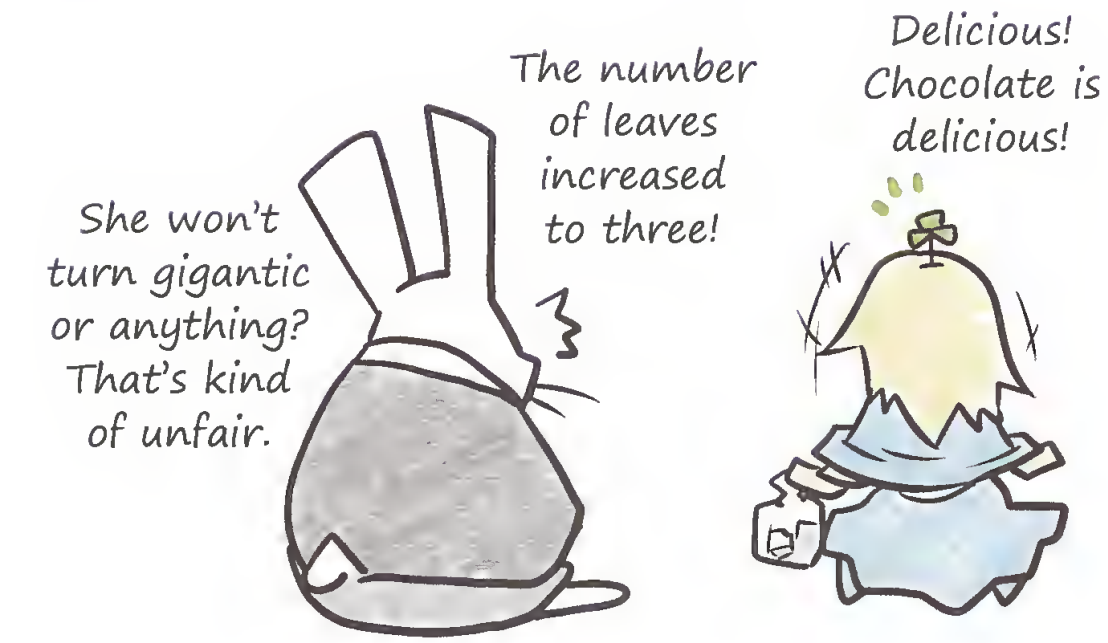


Oh, really...

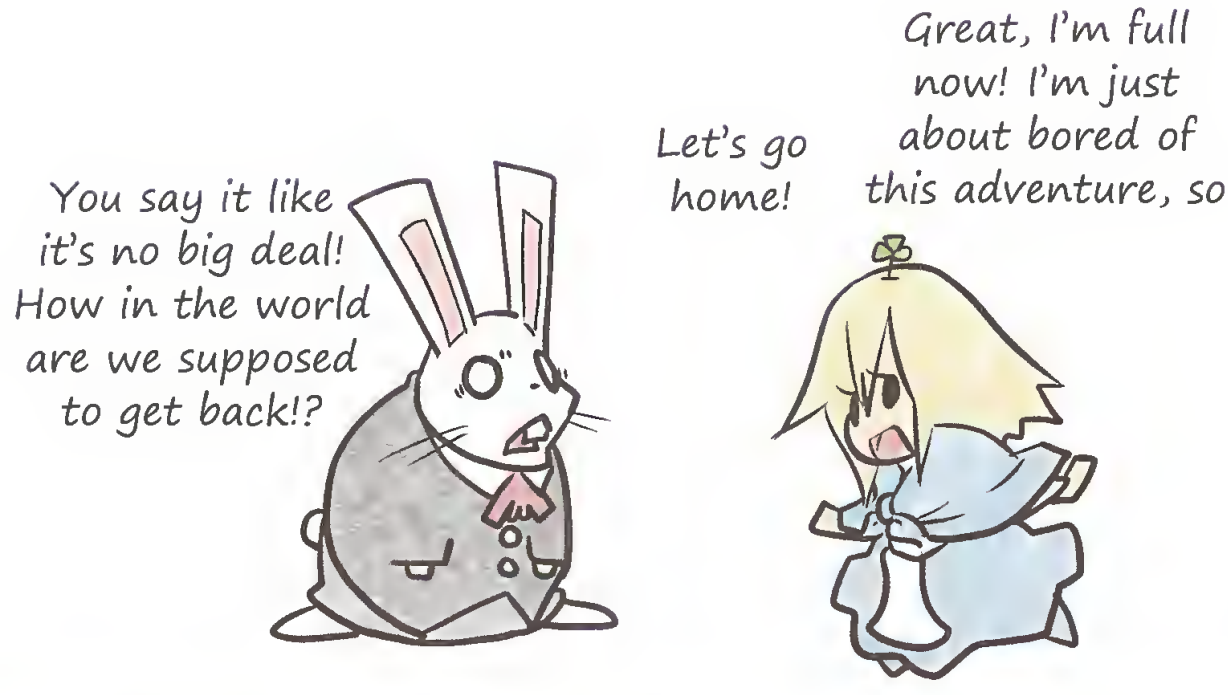
In the end, what was this glove for?

Yay!

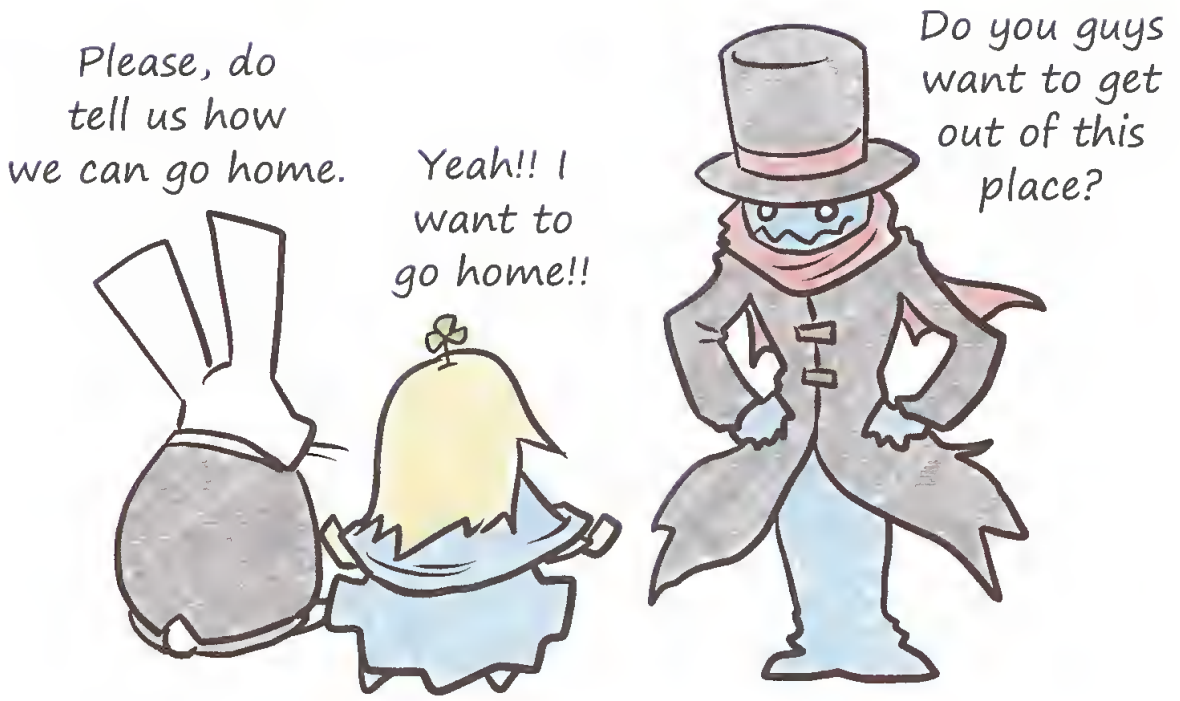
Ah, it's chocolate!



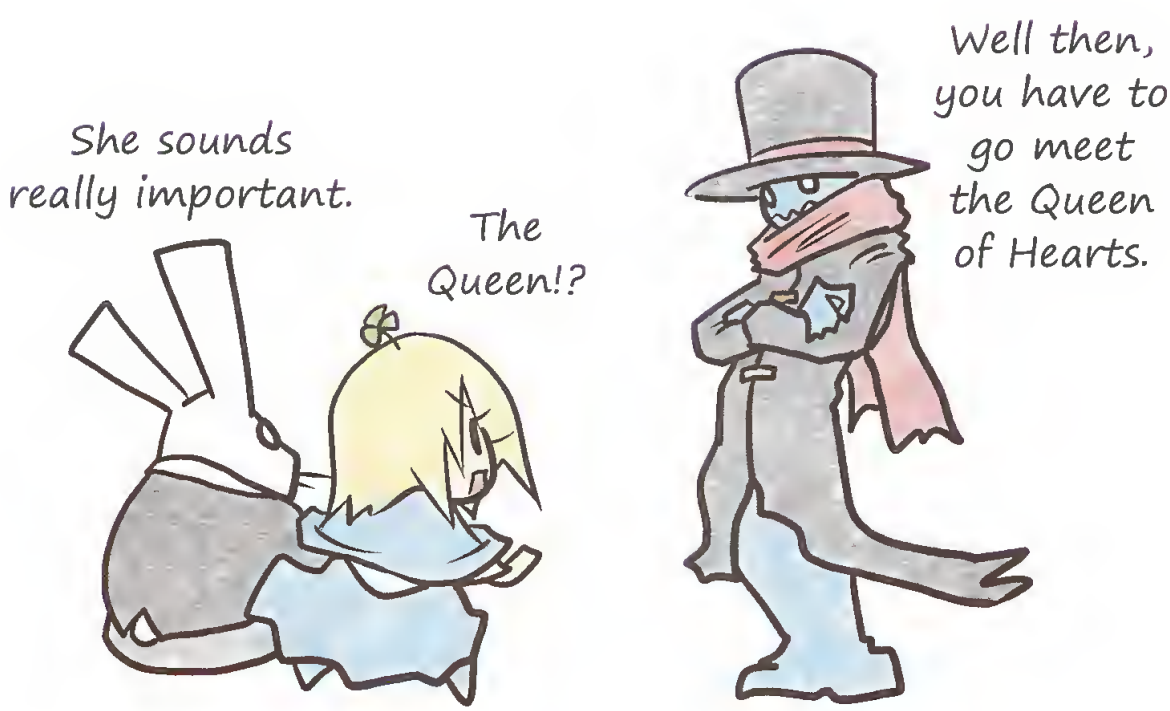
Delicious! Chocolate is delicious!
The number of leaves increased to three!
She won't turn gigantic or anything? That's kind of unfair.



Great, I'm full now! I'm just about bored of this adventure, so
Let's go home!
You say it like it's no big deal! How in the world are we supposed to get back!?

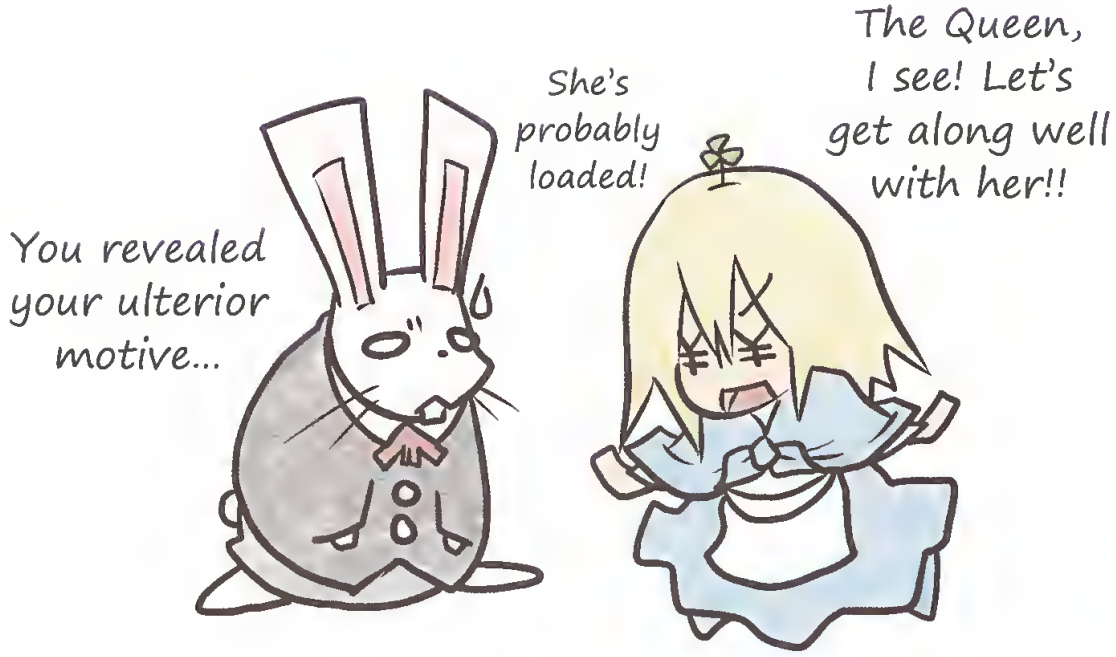


Please, do tell us how we can go home.
Yeah!! I want to go home!!
Do you guys want to get out of this place?



She sounds really important.
The Queen!?
Well then, you have to go meet the Queen of Hearts.

OCHAKAI



You revealed your ulterior motive...
She's probably loaded!
The Queen, I see! Let's get along well with her!!

Well, well, listen till the end, won't you?
You're greedy, aren't you...
Come on, since we're at it anyway, don't you want a souvenir or something?

To get out of here, you need to win against the Queen in a game.

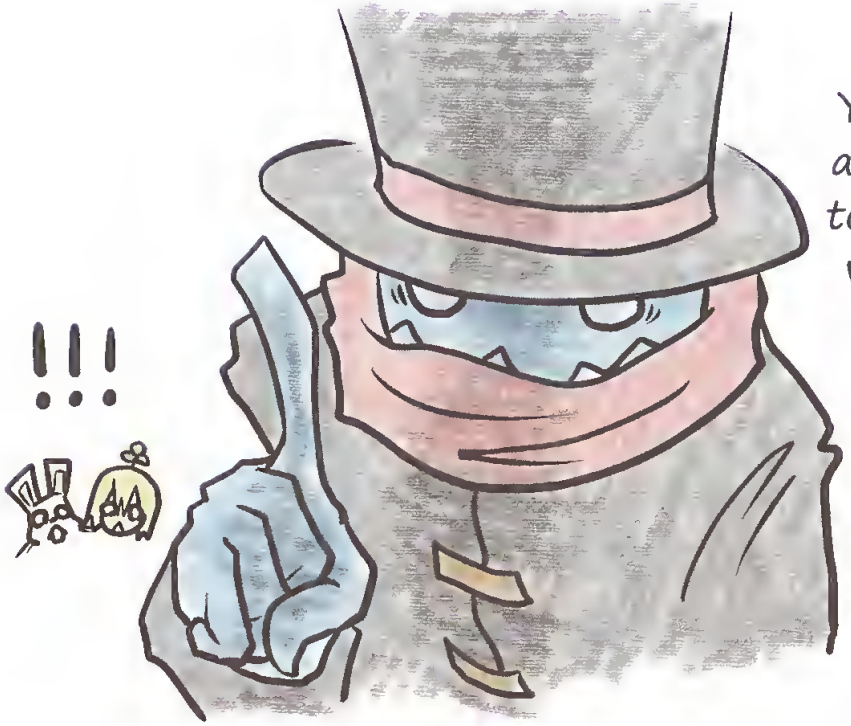
...A game??

That's not a competitive game... It doesn't have anything to do with winning or losing...

And at leveling up!!

That's interesting, isn't it!? I'm really good at role-playing games!!

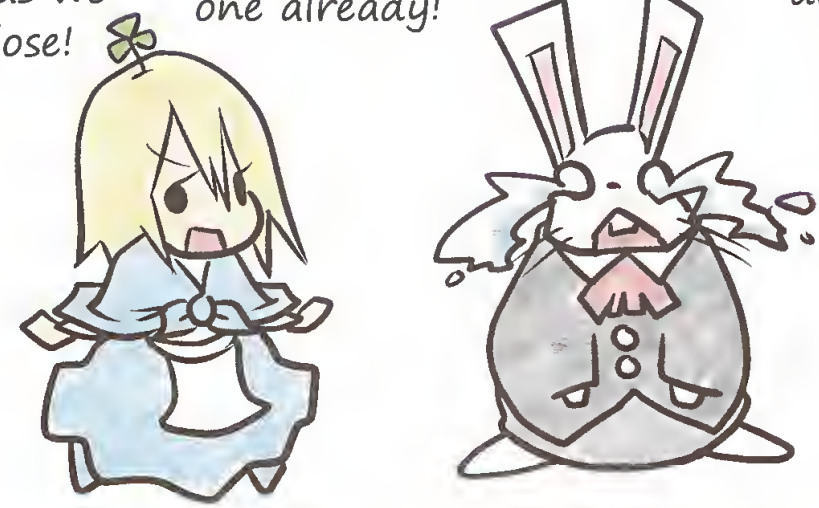
The truth is that if you can't win against the Queen at this game...
Don't get mislead by the word 'game'.



!!!
You'll never be able to go back to your original world in your entire life...!!

In addition! In order to make you get used to this world,

Your appearance will be changed to that of an atrocious-looking monster!!

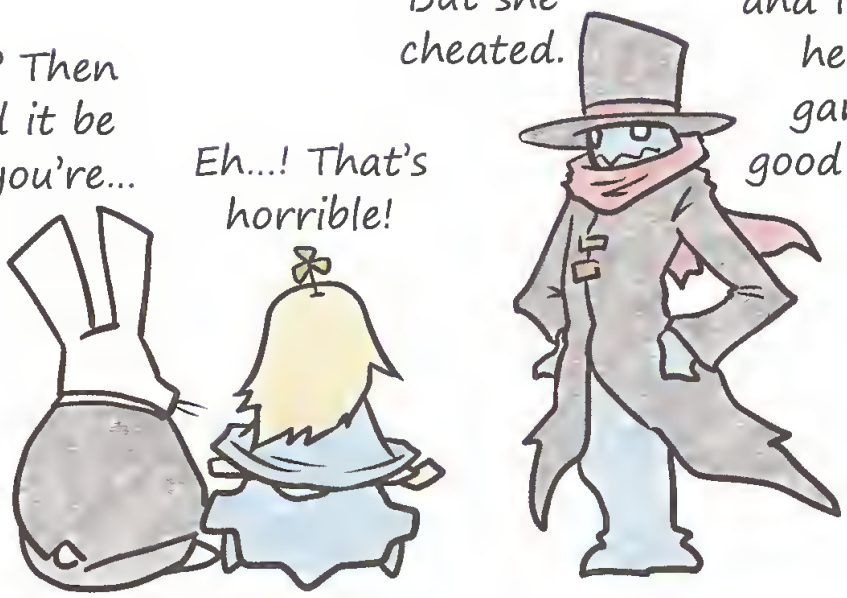


That's what I thought too, and I challenged her with a game I was good at as well,

But she cheated.

Huh? Then could it be that you're...

Eh...! That's horrible!

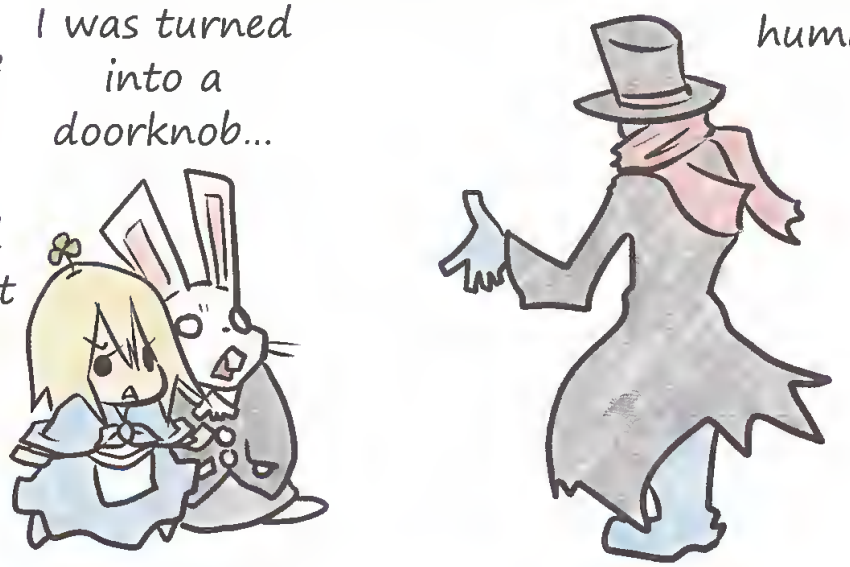


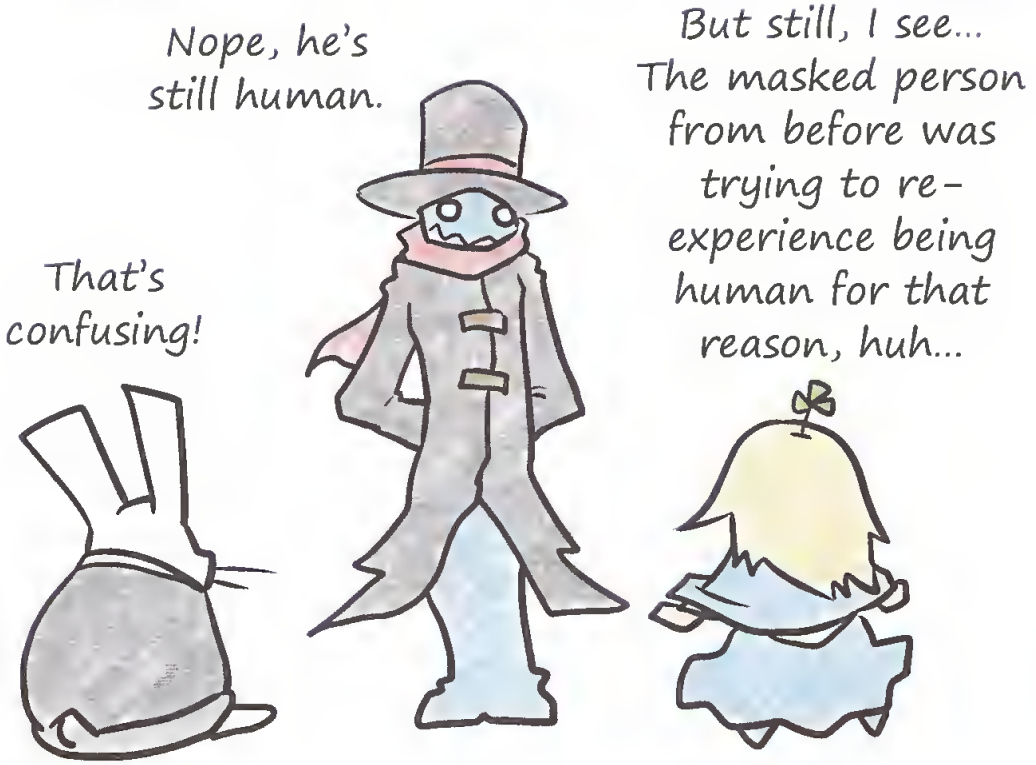
Nobunaga-san the doorknob was also once human as well.

That's right, I was once human.

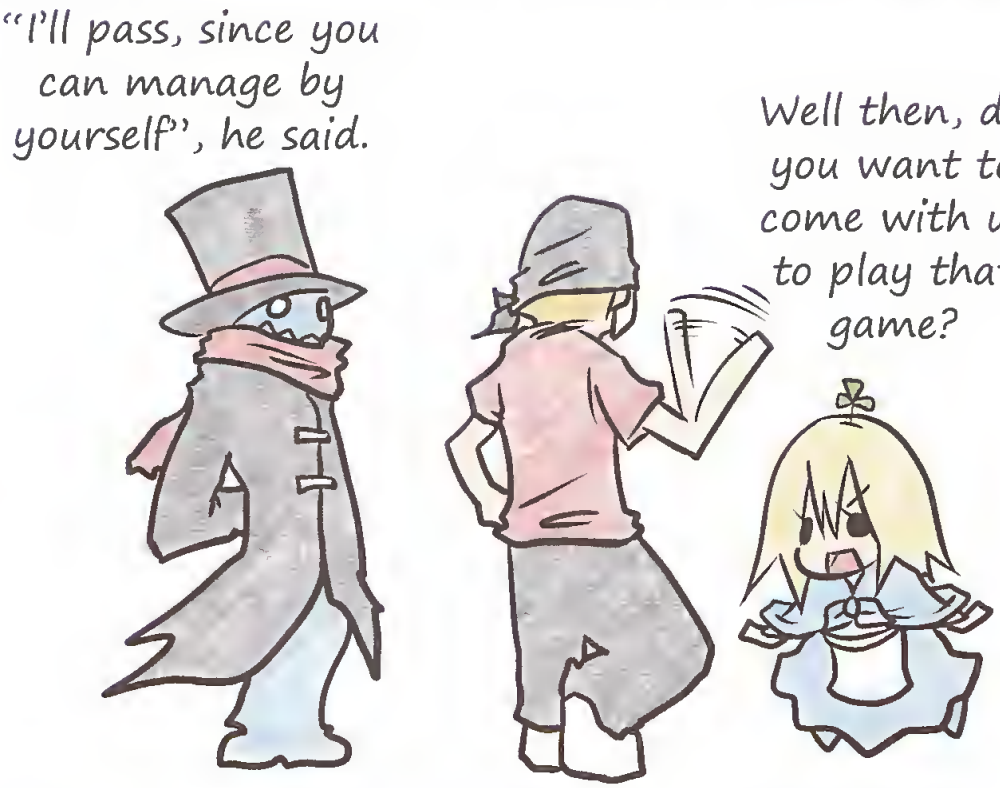
Him, too... I'd be really depressed if I was turned into a doorknob...

Come on, if you're a doorknob and pressed in, you won't be able to open!



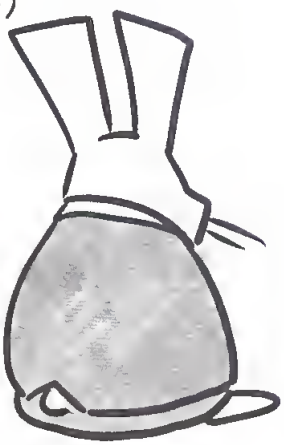


Nope, he's still human.
That's confusing!
But still, I see... The masked person from before was trying to re-experience being human for that reason, huh...



"I'll pass, since you can manage by yourself", he said.
Well then, do you want to come with us to play that game?

(If I retort with "Am I counted as human, too?" in a straight man comedy act, I'm sure she'll get angry, so I guess I'd better not.)



Let's go, just the two of us!

Hmm... well, that's too bad.

Good luck in winning!

Bye bye! Thanks for everything!
